

Diamond 1

Fixed Stadium Seating

Diamond 1 Fixed Stadium Seating

The DIAMOND 1 is a high quality, one piece seat. The modern styled, ergonomic seat shell provides a high level of comfort and durability, designed and developed for use in fixed stadium style seating applications. The DIAMOND 1 is a functional choice for both indoor and outdoor sporting arenas.

The DIAMOND 1 is available in 460mm width and can be set to seat centres of 480 - 500mm. Each seat is individually mounted either directly onto the tier or on cast aluminium brackets for floor or riser mounting. The seat shell also has a weep hole within the mould to allow for water egress

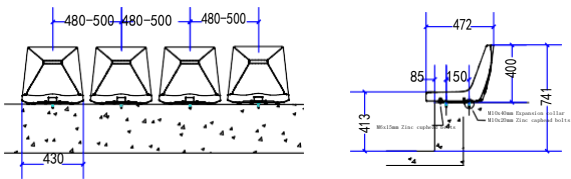

The DIAMOND 1 seat is manufactured from heavy duty poly-ethylene (HDPE) and is available in a choice of 16 modern colours to suit your club or existing décor.
